### Graduation and COVID-19

Because we do not yet have a senior class at Team Success, we are not in the same situation that have a graduating class. However, this does not mean that we stop moving.

Some of the things you can be doing during this time are checking out the schools you'd like to attend, exploring some of the careers you can get with those jobs.

If you want more information get in touch with me!

### Did You Know...

According to a University of California study, more than 75% of college freshmen reported they were accepted to their first choice-college. However, less than 57% said they are attending that college, mostly due to not being able to afford it.

It is important that high school students, especially juniors, start working on their scholarship applications so that they will be able to afford the college that can get their first choice.

Check the Team Success college website or talk with Mr. Howe for more information.
